TESSALINK

Cut Costs, Not Safety!

Equipment Safety Knows No Boundaries

Our TESSALink CertNet™ provides free information access to your customers that need to do safety checks, pull up safety certificates, or run safety audit reports.

CertNet™ Leverages Our Leading-Edge Technology

The TESSALink software is engineered from the ground up to be secure, stable and scalable.

CertNet™ uses granular security to allow seamless "no more, no less" access to the system.

CertNet™ governs access to the TESSALink CertVault™ and streamlines delivery of anywhere/anytime equipment safety information.

CertNet™ Enables Digital Collaboration

TESSALink's CertNet™ makes it easy to collaborate with your customers and suppliers. Companies keep their employees safe and their equipment audit ready by using TESSAlink.

Equipment manufacturers, suppliers and service teams use TESSALink to provide cradle-to-grave safety documentation. Working together our customers improve equipment safety, facilitate audits and keep critical equipment available.

CertNet™ Aligns With Your Business Needs

With TESSALink CertNet™ you only pay a small fee when equipment safety certificates are created. There are no per seat charges.

CertNet™ is all inclusive. TESSALink does not charge CertNet™ customers for other features, including integration APIs.

Your success is not optional. A week of professional service come with your annual contract.
